BASIC GS GmbH
Gerüstbau - Industrieservice

**Scaffolding for Europe's most
demanding industrial projects**

About Us

Since 2017, Basic GS GmbH has grown with every new challenge. We work reliably and flexibly, with a clear commitment to quality, partnership and performance.

Founded as a family business in Oer-Erkenschwick, we have become a strong scaffolding partner for clients across Germany and Europe.

Today, Basic GS brings proven experience, readiness and practical solutions to projects of every size, from smaller construction works to complex industrial and infrastructure projects.

More than 250 skilled people, over 60 vehicles and more than 6,000 tonnes of scaffolding material give Basic GS GmbH the workforce and logistics to deliver demanding projects in chemicals, energy, construction and industry efficiently and on schedule.

Our success rests on a close-knit team, quick decisions and a shared commitment to delivering effective solutions, even in complex conditions.

Basic GS: capable, dependable and a partner you can count on.

Key Facts

**>6,000
Tonnes of
Material**

enable flexible, reliable delivery of large-scale and complex industrial projects.

**> 250
Employees**

deliver strong performance, technical expertise and consistent safety standards.

**>100
Successful
Projects**

demonstrate our experience in delivering demanding scaffolding and industrial projects.

Safety Starts with Responsibility

At Basic GS GmbH, safety is our foundation. Protecting people comes first in everything we do.

Our teams attend practical safety workshops every month, across all locations. This keeps everyone current with safety requirements and proven industry practices.

Every new scaffolder completes intensive hands-on training in our own training and logistics facilities before going to site. This prepares our teams to work consistently to our high standards for safety, quality and performance.
